

MY TRIP TO
GULONG
CANYON IN
QINGYUAN

ANDY LI

In this summer vacation I go to visit Gulong Canyon in Qingyuan city with my Mum, Dad and my aunt. We go there by car.

First, we go to
Gulong Glass Canyon.
There is a long glass
bridge there.

When we stand on
the ground, we see the
glass bridge high in the
sky.

When we
stand on the
glass bridge,
we feel we are
in the sky.

Some adults are afraid when they are on the glass bridge. But I am not afraid. I even run on the glass bridge.

Then we go drifting. Gulong Canyon international drifting base is named the first track in Guangdong. It's more than 4000 meters long.

When the water flows fast, it's very exciting.

When the water flows slow, we can play with water.

I like gap drifting
very much.

I have a great day
in Gulong Canyon
with my family.
