Introduction

We didn't go out from the Chinese New Year for novel coronavirus. This summer Mom and Dad decided to take me to travel on the Grand Circle in (Qinghai-Gansu) Northwest China.

The whole course of the loop is nearly 3000 kilometers, and the whole journey is still far away. It is over 10 scenic spots and across two provinces. We drove all the way around the loop.

Travel Members

Travel members are 12 from 4 families. Children are good playmates in kindergarten. There are my family, Yao Yao's family, Liu Liu's family and Qi Ao's family.

Our dinner is the northwest lamb kebabs, baked potatoes and other snacks. There are so yummy.

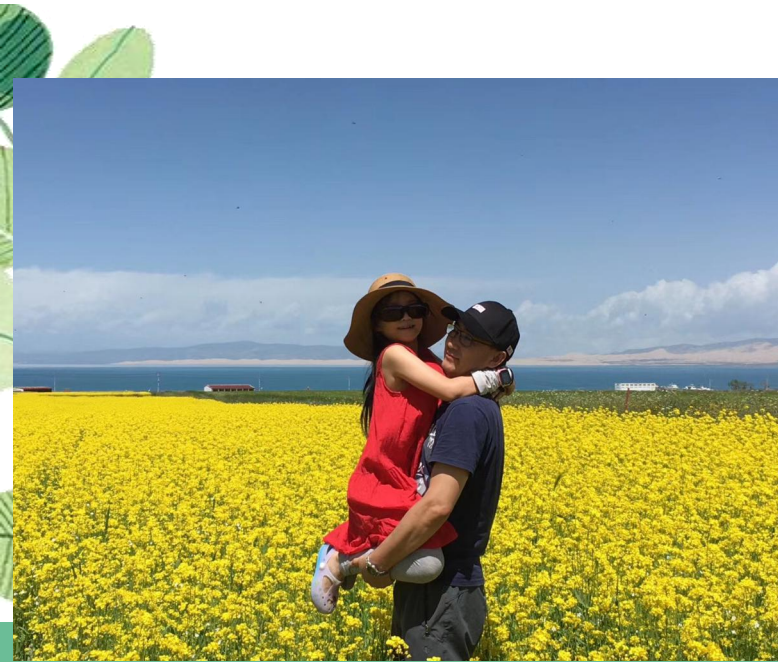

— F i r s t d a y —

On the first day we flew to Xining, the starting place of our trip. Of course I didn't forget to bring my little travelling flag.

— Second day —

On the Second day our trip began! Riyue Mountain, Qinghai Lake, all the scenery is so beautiful and magnificent. But all the adults have the high altitude reaction, and it's 3,800 meters above sea level.

— T h i r d d a y —

Taka Salt Lake and Jade Lake are the main tourist attractions for our third day. The lake is green, and it is said that here is one of the 55 attractions where you have to visit in your life.

— Fourth day —

we went to the oil town and Yangguan site on the fourth day . At night, we also rode desert motorcycles, slid on sand and had a desert camping party. What an exciting day!

— Fourth day —

At the Yangguan site,
I recited an ancient poem
with my parents. Do you
know what it is? It is related
to Yangguan site.....

— Fifth day —

不忘初心

The fifth day was a day of heart-shaking. We visited Mogao Grottoes, walked in the desert, explored the crescent spring, and experienced the visual feast of "encore dunhuang" in the evening.

The performance was so amazing, and it let me go through thousands of years in the history of Dunhuang.

Eating a nine-story ice cream in the Mogao Grottoes is also a great pleasure!

The water of the crescent spring is very little. I hope you can take good care of the environment of the earth, let such beautiful scenery could last forever.

Mogao Grottoes is the largest and most abundant Buddhist art site in the world. We visited eight caves, one of which has a story of nine-color deer painted on the wall. **This is my nine-color deer umbrella.**

— sixth day —

Time came to the sixth day, we were too tired, so we left to Jiayuguan at 9 o'clock . I also found the last brick in the legend.

Moms had a lot of fun here.

— Seventh day —

Time passed so fast, we have gone most of the scenic spots. Colorful Danxia is the last scenic spot. Adults took photos endlessly, but I just want to eat. I am so hungry, so hungry.....

—Last two day—

The last two days were back days, most of the time we were in the car or on the plane. On the way I learned a lot of pop songs, such as “少年”、“最美的期待”.

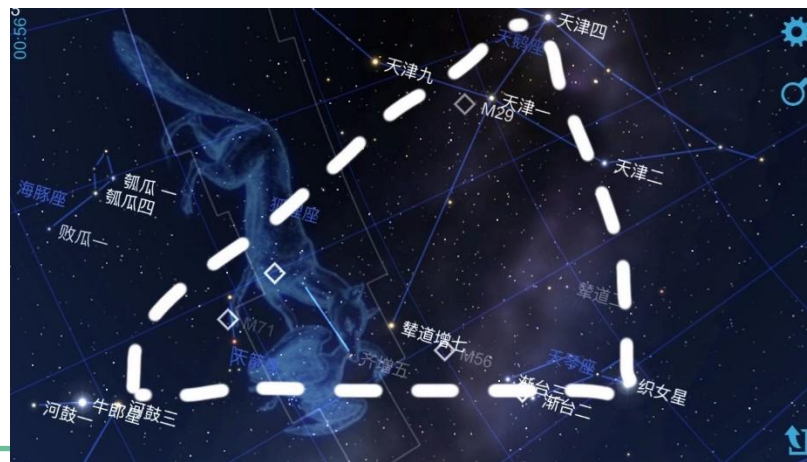

Summary

This trip is my happiest one, because it is not only accompanied by parents, but also with good friends.

I saw the beauty of nature, which is different from the south. The stars in the northwest night sky are bright. I am so close and feel the history.

I'm looking forward to the next trip.

Thank you!
