About the Book

The book tells a story about a little simple girl called Alice who accidentally caught sight of a rabbit and followed it. When the rabbit jumped into a hole, Alice did so out of curiosity. Then Alice had an exciting experience. She sometimes became small or large when drinking or eating something magical. What's more, she came across "somebody" extraordinary like Duchess who had a smile on its face, the big bird who was very stubborn, a queen who liked to kill many people and so on. Finally, it turned out to be only an amazing dream while she woke up and found herself still sitting under the tall cherry tree.

My Comments

This summer holiday I read "Alice in Wonderland", which was written by Charles Lutwidge Dodgson.

In my opinion, it is not only a book to kill time but also a terrific adventurous story. The plot in this book is quite attractive and imaginative. While reading, everyone can't help painting the cute and odd characters vividly in his mind. When we grow up, we will meet with a lot of difficulties. If we all believe there is a wonderland before us, we are bound to face the future always with bright smiles.

All in all, I think this book is not a dream but a magic journey worth recalling over and over again. Like what Dickens said "The pure, the bright, and the beautiful. These things shall never die."

Vivid Parts

She was frightened at this quick change. But she felt that there was no time to be lost, because she was shrinking so fast. She began to eat some from the left-hand piece.

"Come, my head's free at last!" said Alice, with great joy. But soon it changed into fear when she found that her shoulders and hands were nowhere to be seen. All she could see, when she looked down, was a vast length of neck. which seemed to rise like a stalk out of a sea of green leavs that lay far below her.
