Baby Hamster

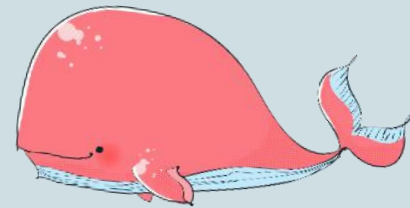

This is the most **funny** thing in the winter vacation.

There are four babies hamster and their mother.

Can you find them all?

Imagine how they look like when they're born.

Let me show you.

My Love ♥

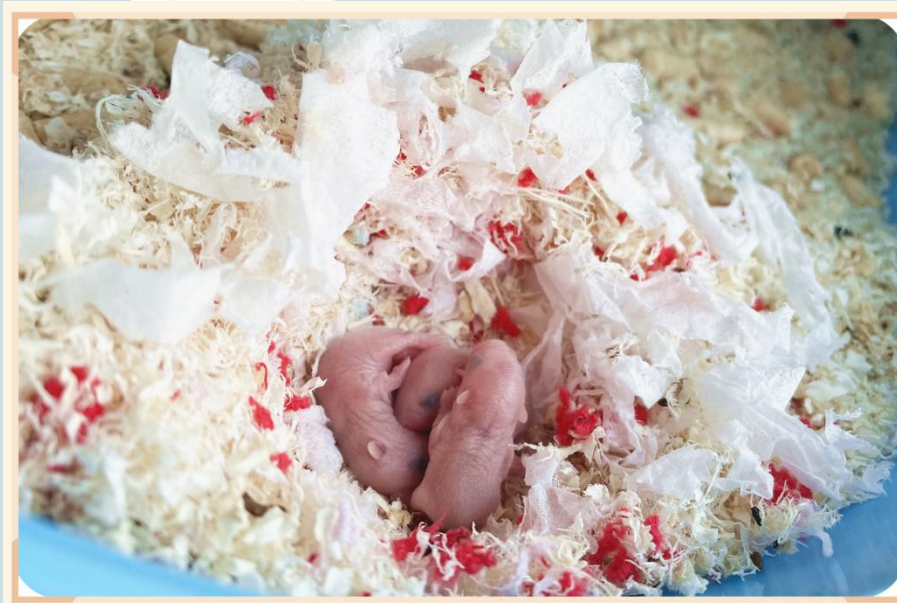

Baby Hamster

1 The First Day

Four babies were born in the evening. They have no fur and keep their eyes closed.

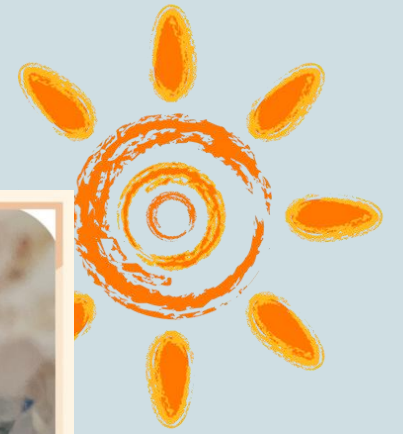

They were so cute and small that mother hamster was looking after them carefully.

2 One Week Later

They were bigger than the first day. They have tiny ears. But their eyes were still closed. They sleep all day in the hole.

Baby Hamster

3 The Tenth Day

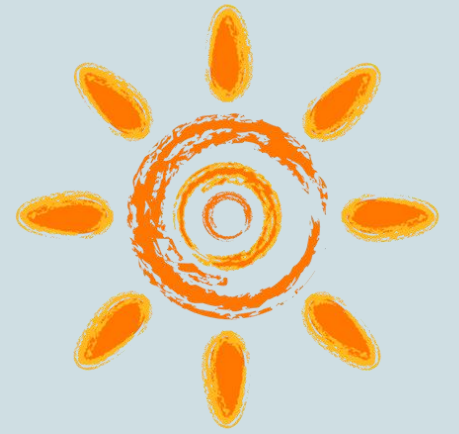

Four babies have short and soft fur. Their ears have grown out completely. And they grow up quickly day by day.

4 Two Weeks Later

Their eyes are nearly open. They can play with each other for a short time. Some of them climb up out of the hole when they feel curious.

Police activity

This is the most **exciting** thing in the winter vacation.

I go to Sun-Yat-Sen University wharf and get on the ship where we have lessons for imitation sailing.

Apart from learning to tie a knot by rope, I also can control the imitation ship.

Police activity

I learn how to use the truncheon

and hold the shield to protect

ourselves.

The leader take us to Guangdong Police College. The police officer teach us how to shoot with the gun.

Stand straightly !

Aim at the front !

Shoot quickly !

Police activity

If we are fall down in crowd of people on the streets, we must protect our head and heart that show in the photo.

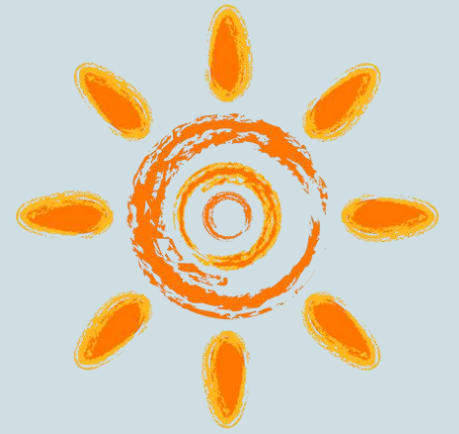

The police officer tell us the importance to do these actions.

You are still be safe when 6 person on your body.

Police activity

Look! I take a photo with the police dog which is so brave that can catch the bad person.

At the end of the activity, the police officer give me a certificate as a souvenir.

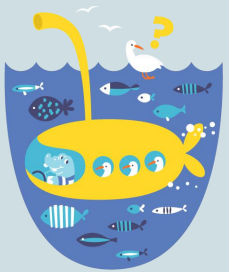

Seek for the plant's shape

This is the most interesting thing in the winter vacation.

I am at the South China Botanical Garden which have various of plants. .

The plants grow with unbelievable shape.

Seek for the plant's shape

Follow the curiously shaped plant below, how they look like? Try to match in pairs with line.

calabash

caryota ochlandra hance

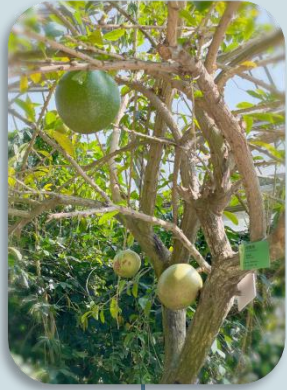

bromeliad

plam

daisy

plate leaf plam

sarracenia

round bomb

fan

sun

fishtail

torch

thin bottle

big plate

Thank you!
