1. 故事内容 About the story

"A Scary Flight" told us a story about a robot, Kuan, saved people on an accident of aircraft fire. Because Kuan is a robot, the airport staff didn't like him. His friends and he met a lot of troubles before boarding on the plane. However, his helped the cabin crew when the plane engine was on fire. He went out, put out the fire, turned into a jet engine and help to land on the airport safely.

"Kuan is a HERO!" Everyone cheered for him.

If we don't have Kuan,
what can we do?
