Bugs!

Bugs.
they're everywhere!
Some fly in the air.
Some swim in the water. Some stay in hair.

Bugs,
they are very old.
We ~~is~~ are from them,
they live when the Earth live.

Bad things bugs do!

I agree we're not good. We make good food become bad, smelly

I also make you ill. Your tummy funny, noses runny, & [illegible] and make you pain.

Good things bugs do!

The piles of trush, we help you to resolve. If in time we rot it away.

We let plants grow, from soil below

We go to work to make leaves for next years trees.

Angela (2018)
