

My FAVORITE SEASON

Edward Mao
Class 3, Grade 3

**My favorite season is autumn.
The school year begins in
autumn. I hope to make
progress (取得进步) in the
new school year.**

It is cool in autumn. We go hiking on every Saturday. We play battle games (打仗游戏) with wood guns.

My happiest day of the whole year is the birthday. My birthday is in autumn, too. I invite my friends to join my birthday party. We have a lot of fun.

**Which festival do you like best?
I have to say Mid-Autumn
Festival is my favorite. We
make traditional lanterns,
watch the full moon, and eat
delicious moon cakes in the
Mid-Autumn Festival. Of
course, Mid-Autumn Festival
is in autumn.**

Besides, autumn is a season with awesome changes. At the beginning of autumn, it will be comfortable to go running around in a T-shirt and shorts.

By the end of autumn, you are more likely to be wearing a jacket and long pants.

In autumn, days get shorter, leaves stop producing chlorophyll (叶绿素) and new colors can be seen in the leaves.

Lots of fruits are ripe and ready to eat in the fall. Amazing carambola (杨桃) in our balcony! Anyway, I like watermelon best. Believe me, you can enjoy juicy and sweet watermelon in Guangzhou's autumn.

I like autumn best. How about you ?
