

My Colorful Summer Vacation

Class 4 Grade 5

William Chen

CONTENTS

- 01. Take exercise
- 02. Do housework
- 03. Go for a trip

1

Take exercise

I had taekwondo lessons and got the black red belt in the test. In addition, I improved my swimming.

Take exercise

My taekwondo training camp last two weeks. We were trained a lot with our coach Li every day.

We all tried our best during the exam in the last day. Because everyone wanted to get a good grade.

Look! I get ready to run, and kick the wood board which is 1.5cm thick. I do it at one time.

Take exercise

I learned breaststroke in the swimming pool day by day. With my efforts, I was the fastest in the class.

2

Do homework

I learned how to wash the shoes and how to cook stir-fried potato slices.

Do housework

I washed my shoes with detergent and brush in order to make them clean.

My shoes were very clean.
Just like they were brand new.

○ Do housework

detailed steps to cook stir-fried potato strips

Peel the potatoes
and cut into strips

Slice the carrot

Cut scallion
into shreds

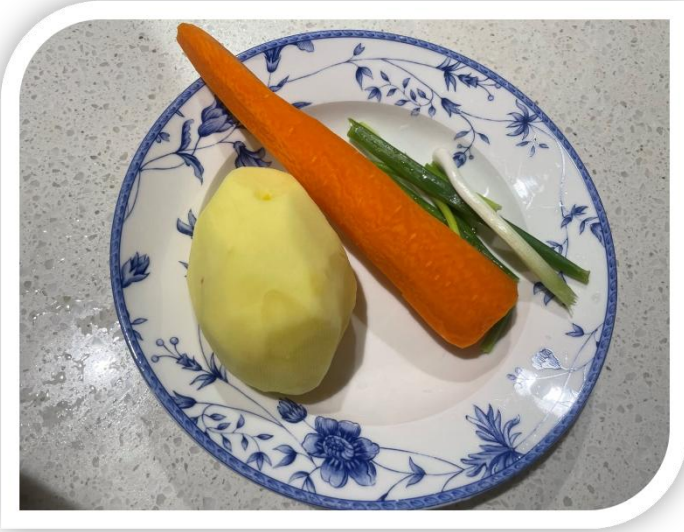

Heat the oil in the
pan and add some
chopped garlic

Pour all prepared
food into the pan
and cook for 3mins

○ Do housework

STEP 01

STEP 02

SUCCESS !

How amazing to cook a meal by myself ! It is very delicious!

It's so easy for us to cook stir-fried potato strips by the above steps .

Would you like to have a try?

3

Go for a trip

I went to Beijing with my family. Let me show you where I had gone.

Go for a trip

Walking with an experienced tour guide, I learned lots of history about the museum.

I went to the Palace Museum which is the largest, best-preserved in the world.

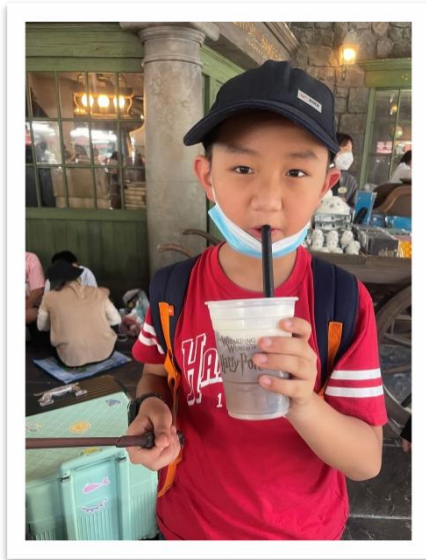

Go for a trip

This is the Universal Beijing Resort which is the biggest Universal Resort in the world.

In the seven themed lands, I liked the The Wizarding World of Harry Potter best. Because I could use the wand to make a magic.

Look! I am drinking the butter beer. Beer? Yes! But can you imagine that it has no alcohol?

Go for a trip

There are many kinds of telescopes of different country at different time in Beijing Planetarium

Did you see the colorful star map under my feet?
The map can tell you how to find constellations.

Go for a trip

At the China Railway Museum, I was so interested in all kinds of trains that I took many pictures for them.

I also visited the Chinese science and Technology Museum. There was a big Tianhe core module when you enter the main gate.

The background features abstract, organic shapes in shades of blue, purple, and orange, primarily located in the corners. The text "Thank you !" is centered in a blue, handwritten-style font.

Thank you !
